

# **How To Save Money on Generic Drugs**

Many pharmacies now have \$4 generic drugs. You must ask for the \$4 drug; otherwise, the pharmacy will not offer it to you. Instead, they will charge you \$10 through our prescription drug plan.

## **How To Get The \$4 Drugs**

1. Always ask at your local pharmacy if your prescription is a \$4 drug.
2. IF the pharmacist says yes, then do not use your drug card. You will pay \$4 for the drug and SAVE \$6.

**REMEMBER, YOU  
SAVE AND YOUR  
MEDICAL PLAN SAVES!**
